

HAZARD ADVISORY FOR RE-ENTRY

Your safety is important. Please take extreme precautions when you are permitted to re-enter your neighborhood. Be aware of the dangers associated with burned areas.

In these areas you may encounter dangerous conditions and may be exposed to toxic materials including but not limited to:

- Embers and hot ash
- Hazardous materials, including ash, asbestos, heavy metals, oils, fire retardants, pesticides and other
- Toxic substances
- Puncture hazards, including broken pipes, exposed nails, rebar, broken glass, damaged structural elements
- Potential explosive hazards including propane tanks, ammunition, and solvents
- Slippery surfaces and uneven ground
- Toxic airborne particles
- Unstable structures
- Displaced wildlife, include snakes and insects in rubble, garbage and wood piles
- Be aware that ground may be unstable

Property owners should exercise caution and use personal protective equipment (PPE) that may include hard hats, gloves, steel toe boots or at least sturdy shoes, and N95 masks. Improper handling and disposal of debris can be harmful.

Please use caution and be safe.
